

LONG PRAWN PRESS: LIFE IN TATTERS!

definition stracciatella (Italian, strac·cia·tèl·la) is a term derived from stracciare (“to shred” or “tear”), referring to (3) three distinct Italian foods.

Long Prawn Let it be known, you don't ever want your life to be in tatters. A cruel condemnation applied only to those in insurmountable disrepair.

Tiny parchments of the good, the bad and the banal; ripped up and cast into the air with the action of confetti and the contempt of a dog ripping a toy. Imagine that you wear your heart on your sleeve, and now that sleeve has been ripped up in countless little rags.

Should you ever feel in tatters, a heart of little rags, please administer all (3) three of these recipes

administer foods (1-3)

stracciatella (soup) Roman egg-drop soup; beaten eggs and cheese are poured into hot broth, forming delicate, shredded strands

stracciatella (cheese) creamy cheese made of shredded fresh mozzarella mixed with cream, commonly used as the filling for burrata
